| Other information | TURNING PROFESSIONAL In April 2021 she turned professional after completing her studies at Chuo University in Hachioji, Japan. "There were two reasons. Firstly, I wasn't able to give back to my sponsors who supported me ahead of the 2020 Olympics in Tokyo due to the postponement of the Games. Secondly, there have been no fencers who were able to continue their sporting careers solely on income received from sponsors. I'm still not sure whether this choice will bring good results, but I'm confident that my success will give the next generation new dreams and possibilities."
